The Bachelor's hood is edged with the distinctive colour. The Master's hood is the same as the Bachelor's, except that it is lined with the distinctive colour. The hood for the M.Sc. (Bus. Admin.) is similar to that of the M.Sc., with grey trim and black and white cord. The hood for the M.Eng. is the same as that of the M.A.Sc., except that it is trimmed with a cord of University blue.

The regalia of the Ph.D. consists of a gown, Cambridge style, of maroon silk with front facing-panel and sleeves of University blue with gold piping; a hood, Cambridge pattern, of blue silk outside and gold lining; a cap, decanal bonnet, of maroon silk with gold cord and tassel. The Ed.D. regalia consists of a gown similar in style to that of the Ph.D. but of black stuff; hood American style with lining of light blue and with chevron of University blue, white and gold; cap, decanal bonnet of black stuff with gold cord and tassel. MUSICAL PROGRAMME

THE UBC SCHOOL OF MUSIC
& THE 15th FIELD ARTILLERY BAND

Director: Professor Martin Berinbaum

1992 UNIVERSITY TEACHING PRIZE WINNERS

Faculty of Agricultural Sciences

No award to be presented this year.

Faculty of Applied Science

Robert L. Evans

Professor, Department of Mechanical Engineering

Professor Robert Evans has made excellent contributions to teaching, research, and professional activities at UBC. His teaching has been consistently excellent, and he is highly respected and well liked by his students. Dr. Evans was instrumental in introducing the use of micro-computers in the fourth year power generation course in Mechanical Engineering. He has acted as the Society of Automotive Engineers Faculty Advisor for ten years, and has been actively involved in supervising a number of student groups entered in design competitions, including the Natural Gas Vehicle Challenge, and the Formula SAE Competition sponsored by the Society of Automotive Engineers. Dr. Evans' research concerns the combustion process in internal combustion engines, cogeneration and combined cycle power generation, and with the fundamental fluid mechanics of turbomachinery. His research is primarily aimed at improving energy efficiency and reducing exhaust emissions. Dr. Evans holds two US patents for engine combustion chamber design. Both students and colleagues know him as a warm and compassionate person, and enjoy interacting with him.

Wendy Hall

Assistant Professor, School of Nursing

Professor Wendy Hall is recognized by colleagues and students as a faculty member who sets high standards and challenges students to perform at their maximum, while providing a supportive and sensitive learning environment. She maintains her skills as a nurse clinician expert in the care of families with newborn infants, thereby enhancing the quality of educational experiences for students. As an active researcher, she effectively incorporates in her teaching relevant research findings from her own work as well as the work of others. Professor Hall also provides outstanding leadership in working with new and inexperienced faculty, assisting them to gain confidence in their teaching ability and to develop their own unique style. A former student aptly describes Professor Hall's qualifications for this award as follows: "She starts with warmth, empathy and respect for students as adults and individuals. She creates a positive non-judgmental environment for growth. Her enthusiasm for nursing is evident in her dedication to her job and the way she teaches. She uses variety and humour to keep the education process fresh and interesting, and involves students in that process in a very active way." Professor Wendy Hall is a highly respected, multitalented, and totally committed university educator, scholar, and nurse clinician, a most worthy recipient of the Applied Science Teaching Prize.

Faculty of Arts

David Donaldson

Professor, Department of Economics

David Donaldson specializes in social choice theory, welfare economics and public finance. Since joining UBC in 1964 he has taught a variety of courses, ranging from introductory economics and Arts One to advanced graduate courses. He is highly regarded as an enthusiastic and stimulating teacher and supervisor. Current and past students particularly stress his ability to make highly abstract material understandable and accessible, his ability to maintain students' focus on the social significance of the issues being addressed, and his deep interest in students' well being in addition to their understanding.

Marketa Goetz-Stankiewicz

Professor, Department of Germanic Studies

Dr. Goetz-Stankiewicz is respected by students and colleagues in Germanic Studies and Comparative Literature as a truly outstanding teacher. She has brought an absolutely up-to-date knowledge of modern German and Czech literature to her classes. Through her dedication and enthusiasm and through her "open" style of teaching she has enriched the lives of her students by encouraging them to develop their own ideas creatively and critically.

Neil Guppy Associate Professor, Department of Anthropology and Sociology
Professor Guppy links theoretical sociology to the practical. He regularly assists students in planning and achieving their career goals, both inside and outside the university. His popularity and impact extend beyond the Faculty of Arts to the Faculties of Applied Science and Forestry.

John Roeder Associate Professor, School of Music
Dr. Roeder's research specialties are diverse, including theories of contemporary art music, rhythm, and applications of semiotics, mathematics, and artificial intelligence. His work has attracted support from SSHRC and other nationally-recognized agencies, and his publications span the major journals in his field. He is equally at home teaching undergraduates and graduates, and his teaching combines intellectual rigor with compassion for his students. That compassion extends beyond his job description; he has taught Sunday School for the past six years, and has served as the Scoutmaster of the Richmond 13th Troop.

Mary Sue Stephenson Assistant Professor, School of Library, Archival and Information Studies
Since joining the school in 1987, Dr. Stephenson's commitment to her students has been exceptional. She is held in great esteem by students and her colleagues for her endless patience and sincere concern for her students, as well as for her humourously incisive teaching style. An experienced professional information specialist who is active in professional organizations, she daily demonstrates her mastery of the complexities of the design, construction and application of computer systems for information handling, yet always has time to offer friendly counsel to students and faculty alike.

Faculty of Commerce and Business Administration

Peter Frost Edgar F. Kaiser, Jr. Professor of Industrial Relations
Peter Frost's award is for significant pedagogical innovation in methods of management education. Professor Frost was nominated for his innovative development of a text in *Organizational Behaviour, Management Live*. A significant aspect of this book is its full integration with video materials. A number of courses and even texts make use of video materials, but none so far has actually been constructed to fully integrate the video material into the pedagogical development of course materials. The adoption of Dr. Frost's innovation by management schools outside of UBC is powerful evidence of the importance of his contribution.

Rob Heinkel A.E. Hall Professor of Finance
Professor Heinkel has a sustained record of teaching excellence in undergraduate finance courses. He has played a major role in the development of the Portfolio Management Society. The Society is an important element of the education of Finance majors, including those who do not participate directly. This program, in which students manage a \$1 million portfolio, requires significant amounts of time, both for student interaction and for interaction with the downtown business community.

Faculty of Dentistry

T.B.A.

Faculty of Education

Ronald Jarman Professor, Department of Educational Psychology
and Special Education

Dr. Jarman is an outstanding teacher and supervisor. Graduate, teacher education and NITEP students find him intellectually challenging, stimulating, skillful and helpful. Students at all levels from first year through the senior doctoral year express genuine satisfaction with his teaching. His ability to adjust course content to the educational interests and needs of his students, his excellent communication skills and his openness to new ideas have contributed to his reputation as a committed teacher.

Daniel Pratt Associate Professor, Department of Administrative,
Adult and Higher Education

Dr. Pratt is an excellent teacher. His students comment that his enthusiasm for and commitment to teaching illuminate his working relationships with them. He not only teaches well, he strives to learn from all his students while at the same time challenging them to stretch and grow intellectually. His respect for his students is matched by their respect for him and his dedication to them as learners.

Faculty of Forestry

Anton Kozak Professor, Department of Forest Resources Management and
Associate Dean of the Faculty

Professor Anton Kozak is recognized for many years of first class teaching in which he combines a thorough knowledge of subject material with careful, painstaking explanations to guide even the most callous student through the oft-misunderstood areas of statistical theory and application. With an informal, infectious lecture style Professor Kozak stimulates enthusiastic class interaction.

Faculty of Graduate Studies

Rosemary Knight Assistant Professor, Department of Geological Sciences
and Department of Geophysics and Astronomy

Supervision of graduate students is a vital element in teaching at the graduate level. This is recognized in the Teaching Prize awarded this year by the Faculty of Graduate Studies to Rosemary Knight. Professor Knight has a unique combination of enthusiasm, personal warmth, energy, uncompromising professional standards and leadership which makes her both a role model and a friend to her group of graduate students. She creates an exciting research environment, using a team approach to solving problems. Her enthusiasm for rock physics, indeed for life in general, is contagious. Her graduate students describe the atmosphere in her laboratory as "positively exhilarating" and her influence as "pervasively catalytic".

Faculty of Law

Robert Diebolt Assistant Professor

Professor Diebolt earned a B.A. (Honours Economics) and an LL.B. at the University of British Columbia graduating as the gold medallist. He earned an LL.M. at the London School of Economics and Political Science, University of London. He was first appointed to the Faculty of Law in 1971. He resigned in 1975 to enter the private practice of law but returned to the Faculty in 1977. Throughout his academic career his teaching has been described in superlative terms such as "truly outstanding", and "gifted". Professor Diebolt's teaching responsibilities cover the areas of constitutional law, commercial law, contracts and secured transactions.

Faculty of Medicine

Roland W. Lauener Professor and Associate Dean, Undergraduate Medical Education
Department of Medicine

Dr. Lauener has demonstrated consistent and persevering commitment to the education of undergraduate medical students. As a teacher of internal medicine he is highly regarded by his peers as one of the best clinicians in the Province. Through his leadership on the Curriculum Planning and Development Committee and his dedication to teaching, he has been instrumental in changes to the curriculum and new methodology which will put UBC into the vanguard of medical education. He is truly a unique and valuable resource within the Faculty of Medicine.

David W. Scheifele Professor and Director, Vaccine Evaluation Centre,
Department of Pediatrics

Dr. Scheifele has taught throughout B.C., Canada and internationally on all aspects of infectious diseases. He is consistently rated as one of the best speakers in his field by the American Academy of Pediatrics and is in great demand. Dr. Scheifele has received the Pediatric Resident Excellence in Training Award several times and made major contributions to teaching at all levels. He is an

outstanding teacher with a gift for eloquence and clarity, and an example to us all of the ideal teacher.

A. Wayne Vogl

Associate Professor, Department of Anatomy

Dr. Vogl has provided valuable and committed leadership in the development of new undergraduate programs and has been a key faculty member in the growth and development of the graduate program in the department. He is highly rated by his students who admire his enthusiasm and intellectual stimulation in the classroom combined with superb artistic talent. Dr. Vogl has been the recipient of the outstanding first year teacher award on three occasions and was recognized internationally as outstanding anatomist on the basis of his combined teaching and research achievements within ten years of his appointment in a faculty position. He has combined both great natural ability as a teacher with extraordinary dedication.

Faculty of Pharmaceutical Sciences

David Fielding

Associate Professor and Chairman of the Division of
Pharmacy Administration

Dr. David Fielding has a long-term record of excellence in teaching. His lectures are informative and clearly presented and are consistently well-received by the students in the Faculty of Pharmaceutical Sciences. The students appreciate his good sense of humor, his friendliness, his approachability and his fairness in dealing with them. In addition to his teaching responsibilities, Dr. Fielding has played a major role in course and curriculum development within the Faculty, and was Director of Continuing Pharmacy Education for many years. His dedication to teaching and his sincere desire to provide students with the knowledge and the ability to continue to learn after leaving the University environment, make him an excellent choice for the 1992 University Teaching Prize for the Faculty of Pharmaceutical Sciences.

Faculty of Science

John E. Coury

Associate Professor, Department of Mathematics

Over the past several years Dr. John Coury has been teaching courses at all levels of mathematics, ranging from a service course to non-science students through honours courses to a graduate course. In spite of this variety Dr. Coury always obtains extremely high ratings from his students. His classes are both well organized and relaxed, and he brings in many real life examples which make the lectures most intriguing. Dr. Coury also makes considerable effort to promote mathematics outside the University.

Anthony J. Merer

Professor, Department of Chemistry

During his career at U.B.C., which spans nearly a quarter of a century, Dr. Anthony Merer has taught chemistry at all levels, ranging from first year undergraduate general chemistry, to graduate courses in spectroscopy. He is renowned for his superbly crafted, clear and stimulating lectures, which are always presented with great enthusiasm and a fine sense of humour. He has made major contributions to course development, particularly upper level courses in quantum mechanics and spectroscopy. His teaching is always exceedingly well received by his students. In addition, Dr. Merer is a very distinguished research scientist, who has won many awards, including an Alfred P. Sloan Fellowship, a UBC Killam Research Prize and a Canada Council Killam Research Fellowship; he is a fellow of the Royal Society of Canada.

Wilfred B. Schofield

Professor, Department of Botany

Dr. Wilfred Schofield has made major contributions to the teaching of Botany at U.B.C. for over three decades. These range from a very heavy course teaching load (four courses in 1991-92), and an exceptional commitment to laboratory education, to the writing of a textbook on Bryology which has won several awards, and preparation of detailed course notes for a course on Phytogeography when there was no available text. His dedication to laboratory education is such that he spends most weekends collecting materials for the labs, and, where necessary, modifying the lab manual write-up to accommodate the available material. Dr. Schofield is well recognized as an approachable and concerned teacher, very sensitive to the needs of students; this is reflected in very high student ratings of his teaching. Dr. Schofield has also had a productive research career, with over 60 research publications, and has collaborated on five standard textbooks on botany.

O CANADA

O Canada! Our home and native land,
True patriot love in all thy sons command.
With glowing hearts we see thee rise,

THE UNIVERSITY THANKS ITS FRIENDS. FOR THEIR CONTRIBUTIONS

It is an immense source of pride for the University to know that an increasing number of its alumni and friends realize the important role private gifts play in the life of an educational institution.

The basic support for the University comes from fees and from the Province of British Columbia and the Government of Canada. Nevertheless, there are important areas not covered by such funding, creating opportunities to enrich the University through private donations. Alumni and friends are playing a more important role than ever in supplementing government support to build a greater UBC.

In 1989, UBC launched The UBC Campaign, A World of Opportunity, the largest university fund-raising Campaign in Canadian history. Designed to provide the facilities, equipment, scholarships and endowed chairs required for academic distinction, when the Campaign draws to a close in 1992, it is expected that private sector and government donations will total more than \$250 million.

The University wishes to express its appreciation to those who through their gifts have demonstrated their commitment to the ideals of the University and their awareness of its needs. Your generosity contributes immeasurably to the vitality and strength of UBC.

With more than one hundred academic departments, schools, research institutes and centres administered by the faculties, the opportunities are many and varied. We have an excellent faculty and strong academic programmes on which to build.

Be assured that UBC will strive to continue to merit your confidence and support.

For further information about gifts to UBC, please contact the Development Office, The University of British Columbia, Vancouver, B.C. V6T 1Z1, Telephone 822-8900
