The wearing of academic costume is a tradition that has persisted from the Middle Ages, when the first Universities were founded.

The regalia vary slightly from one University to another and, within a University, according to the status of the wearer.

At The University of British Columbia the undergraduate’s gown is black and of the ordinary stuff material; the yoke is edged with khaki cord. The Master’s gown is similar but lacks the cord.

The colours for the degrees are:

B.A.—University blue
B.F.A.—University blue with magenta cord
B.A.Sc.—Scarlet
B.Com.—Light grey with black and grey cord
B.Ed.—White with University blue cord
B.H.E.—Turquoise
B.L.A.—Maize with scarlet cord
M.L.S. (M.L.I.S.)—Cadmium yellow
M.A.S.—University blue with silver and cadmium yellow twisted cord
B.Mus.—University blue with alizarin crimson cord
B.Sc.—Light blue
B.Arch.—Scarlet with white cord
B.D.Sc.—Lilac and red cords on white
D.M.D.—Lilac and red
Ed.D.—Royal blue and light blue, with chevron of University blue, white and gold
B.H.K.—Malachite green
B.Sc.(Agr.)—Maize
B.Sc.(Dietet.)—Turquoise with gold and white twisted cord
B.S.F.—Brown with green cord
B.Sc.(Forestry)—Brown with light blue cord
B.S.N.—Scarlet with twisted cord of University blue and white
B.Sc.(Pharm.)—Dark green with scarlet cord
B.Sc.(O.T.)—Scarlet and white twisted cord on royal blue
B.Sc.(P.T.)—Scarlet and white twisted cord on royal blue
B.S.W.—Magenta
I.L.B.—Amethyst violet
M.D.—Scarlet and royal blue
B.M.L.Sc.—Scarlet and royal blue twisted cord on white
M.H.A.—Red and pale blue
M.A. (Planning)—University blue with dark green and slate grey
M.Sc.(Planning)—University blue with dark green and white
M.H.Sc.—Scarlet and grey
Ph.D.—Blue and gold
D.M.A.—Royal blue and alizarin crimson with blue and gold chevron
Pharm.D.—American style with lining of University blue and with chevron of University blue and gold

The Bachelor’s hood is edged with the distinctive colour. The Master’s hood is the same as the Bachelor’s, except that it is lined with the distinctive colour. The hood for the M.Sc. (Bus. Admin.) is similar to that of the M.Sc., with grey trim and black and white cord. The hood for the M.Eng. is the same as that of the M.A.Sc., except that it is trimmed with a cord of University blue.

The regalia of the Ph.D. consists of a gown, Cambridge style, of maroon silk with front facing-panel and sleeves of University blue with gold piping; a hood, Cambridge pattern, of blue silk outside and gold lining; a cap, decanal bonnet, of maroon silk with gold cord and tassel. The Ed.D. regalia consists of a gown, Cambridge style, of black stuff; a hood, American style, with lining of light blue and with chevron of University blue, white and gold; a cap, decanal bonnet, of black stuff with gold cord and tassel. The D.M.A. regalia is similar to that of the Ed.D. with hood lined with alizarin crimson and a chevron of University blue and gold. The Pharm.D. regalia consists of a gown, Cambridge style, of black stuff with front facing panel and sleeves of dark olive green with gold piping; a hood, American style, with lining of University blue and with chevron of University blue and gold; a cap, decanal bonnet, of black stuff with gold cord and tassel.

The hood for the honorary degree L.L.D. is of scarlet broderie lined in dark blue velvet; for the D.Sc., it is lined in dark purple and for the D. Litt., it is lined in cream.
FACULTY OF AGRICULTURAL SCIENCES
Dr. Robert J. Copeman Department of Plant Science

Dr. Bob Copeman joined the Department of Plant Science in 1969. During these 28 years, Bob has earned a reputation among his colleagues and students as an outstanding teacher and mentor. Bob’s students provide the best recognition of his teaching skills:

“Dr. Copeman demonstrates his teaching excellence with thorough lectures, and his ability to use class time very efficiently. He not only expects a great deal from his students, but he also gives a great deal to his students. He obviously desires that all undergraduates achieve their very best. Dr. Copeman’s door always remains open and he is always willing to help students in any way possible. He often reaches his office before students arrive in the morning, and he usually is the last to leave each evening. Dr. Copeman is dedicated to his work, which he performs with joy and passion!”

“Dr. Copeman’s excellence goes beyond his teaching and willingness to help students out of class. He is also an exceptional person, and the kindest, most caring professor at UBC. His nurturing advice extends to all parts of our lives—our origins, our dreams, and our plans for pursuing those dreams. It would bring me and many other undergraduate students much joy to see him recognized for being an excellent advisor, professor and human being.”

These testimonials provide superlative confirmation of Dr. Copeman’s contributions to teaching and student development. The Faculty of Agricultural Sciences is truly honored to recognize Bob as the 1997 winner of our Killam University Teaching Prize.

FACULTY OF APPLIED SCIENCE
Professor Elaine Carty School of Nursing

Professor Carty is an international expert on all aspects of Nursing associated with the delivery of health care to child bearing families. Her particular interests include midwifery, early discharge from hospital after birth, and child bearing and parenting with disabilities. Her knowledge and skills are solidly grounded in the practice setting, and she works in close collaboration with colleagues at hospitals and clinics.

Professor Carty brings enormous enthusiasm and creativity to the classroom. Her students welcome her ability to impart knowledge in a straightforward down to earth manner, avoiding jargon. She encourages students, at both the graduate and undergraduate levels, to question the status quo and to view problems from multiple perspectives.

Professor Carty has been a leader in the development of teaching support materials and in graduate education. She has supervised numerous graduate theses, and a number of her former students have become exemplary teachers in Nursing.

Professor Carty is an outstanding educator, and deserving recipient of the UBC Killam Teaching Prize.

Professor Peter Lawrence Department of Electrical and Computer Engineering

Professor Peter Lawrence has had a major impact on the teaching of computer and instrumentation systems in Engineering at UBC. Together with Konrad Mauch, he developed the course which introduces engineers in all disciplines to this area. Thanks to Professor Lawrence, hundreds of engineers over the years have designed digital systems that mix hot and cold water to a desired temperature and tank level, and then maintain those levels in the presence of disturbances - the washing machines. More recently he has developed the Electrical Engineering component of the new Wood Products Manufacturing Program. He brings great enthusiasm and a very practical orientation to his classroom teaching, encouraging students to understand the real world implications of what they analyse on paper.

Professor Lawrence is an outstanding researcher and graduate educator. Under his supervision some 25 students have completed theses in telerobots and control during the past five years, and the results of this research have been patented and licensed to industrial users. He is a strong champion of the application of Canadian-developed technology in our resource industries.

Professor Lawrence is a world-renowned educator and worthy recipient of the UBC Killam Teaching Prize.

FACULTY OF ARTS
Dr. Margaret Blom Department of English

“A wise and trusted teacher, counselor and friend”: this is how Margaret Blom has been described by one of her former students.

But this description should not imply some sentimental “Mrs. Chips.” Dr. Blom also has a reputation among her most admiring students as the guardian of challenging academic standards, whose approval cannot be purchased with flattery or indulgence. As one of her students puts it: “She is so softy” but a scrupulous disciplinarian who covers her students’ papers with a copious flow of green ink (both A papers and D papers) until the integrity of her standards finally impresses itself upon the gratefully corrected. In
this sense, she is a genuine "enabler" — a teacher whose lessons shape and influence the lives of those fortunate to have fallen under the spell of her vivacity, her quick wit, and her contagious laughter.

One final comment, from a colleague who lingered in the corridor to hear Dr. Blom's last class on George Eliot's Middlemarch:

"She spoke with such tenderness, such compassion, such... concern for the truth of Dorothea's life, and of our common and yet solitary lives, ... that tears came to my eyes. She had become a channel through which George Eliot at her most incandescent was pouring into the quiet room."

Prof. Bogdan Czaykowski  
Russian and Slavonic Studies Program

Poet, Linguist, Political Historian, Modern European, Comparatist: the range of Bogdan Czaykowski's interests is such that he has influenced an extraordinarily wide cross-section of students at UBC. It is entirely appropriate that one of the letters in Professor Czaykowski's dossier should be written by a Canadian student traveling on a train to Copenhagen and chatting "about all the wonderful professors we had at UBC I realized," she says, "that I never wrote a note to thank you for being my favourite professor."

What makes Professor Czaykowski a favourite among so many is that he encourages his students to travel, both literally and figuratively — to find out for themselves. Another letter sums up the essential quality of this most exemplary of teachers:

"Each student," it reads, "was... treated not only as a person but also as a developing mind, such that what we did and thought and said in the classroom naturally spilled over into our other classes and into our lives. What impressed me most was that we were all taken seriously as young intellectuals... and we were constantly challenged to think and learn for ourselves. Not only each course, but the university itself was understood to be without boundaries, so to speak, interdisciplinary by definition."

Dr. Ann Dusing  
Department of Classical, Near Eastern and Religious Studies

"I would be at a loss to suggest how a first year course in language could be made more useful or attractive," writes a visiting Professor about Dr. Dusing's Latin 100. What is most attractive about her teaching — apart from the avalanche of students' compliments about her energy and her enthusiasm and the sheer pleasure of her instruction — is that she is able to make her subject totally enthralling in new and innovative ways. She is a pioneer in telling the story of women in antiquity and making the details relevant to modern life; and in doing so, as one of her students says, Ann Dusing "opened my eyes to a whole new way of looking at history."

Passion and fun: these are the qualities that her students most cherish in Dr. Dusing's teaching. A high degree of "professional prowess" exists in harmony with "a wonderful feeling of respectful camaraderie" in her classes; and the same sense of balance exists in a curriculum which strikes "the right balance between the need for change and academic integrity."

Clearly, anyone who shares Dickens' view that classicists work exclusively in the graveyard of dead languages have no knowledge of Ann Dusing.

Dr. Christopher R. Friedrichs  
Department of History

"The man is a talented, thoughtful, insightful, analytical, witty, and a totally organized lecturer," writes one of Dr. Christopher Friedrichs' students. "He could read the telephone book and make it interesting."

What this praise amounts to is Dr. Friedrichs' extraordinary ability to relate the individual life, in all its pathos and tragedy, to the broader themes of European History and so touch the sensibility of his students. His own qualities of "compassionate wisdom" (as one student describes them) transform his subjects into a great humanistic inquiry into the issues that shape our lives. "In a quiet way," writes one of Dr. Friedrichs' students (who is, now, an Associate Professor of History), "he has been the single most important influence on my career."

Beyond his dedication to classroom-teaching, Chris Friedrichs relishes his contact with the public — affirming his belief that the University should serve the public. Through the Speakers Bureau, Continuing Studies, and his work with the Vancouver Holocaust Centre, he has built a solid reputation as one of the city's most revered and popular lecturers. "Through the years," as one of his admirers points out, "he has done the university a great service by representing to the public a tradition of great teaching and academic excellence that is at the heart of UBC's mission."

Dr. Kenneth Stoddart  
Department of Anthropology and Sociology

For many years, Dr. Stoddart has enjoyed the reputation as the "person in Arts Advising to talk to," and whose course in Sociology 100 is the legendary "course to take" for all Arts undergraduates. He is, par excellence, a teacher whole-hearted committed to improving the quality of undergraduate teaching, to making the campus a more hospitable place for undergraduates, and to teaching students beyond the university via the Knowledge Network.

Dr. Stoddart is not only a student's teacher. He is also a teacher's teacher who writes about pedagogy, and who actively participates with the Teaching and Academic Growth Group. But, above all, he makes his students fall in love with sociology as a discipline that address-
es their lives. His tele-courses for the Open University have consistently drawn large audiences; and his popularity has been attest-
ed by one of our undergraduate students who writes: "I have met people who watch the show on a regular basis, just because it is
interesting, like my mother, for example!"

It might be more accurate to point out that Dr. Stoddart’s greatest contribution to television culture is not to have reduced the audi-
ence of Star Trek, but to have persuaded his devotees that Star Trek is indeed a sociological phenomenon.

FACULTY OF COMMERCE AND BUSINESS ADMINISTRATION

Professor Brian Graham

Professor Brian Graham is the 1996-97 recipient of the Faculty of Commerce UBC Killam Teaching Prize in recognition of his
contributions to teaching in the Undergraduate Program. Professor Graham is the first two-time winner of the Commerce
Undergraduate Student Society Teaching Excellence Award. In 1992-93 he won the C.G.A. Graduate Master Teacher Award. A for-
mer Assistant Director of the Undergraduate Program, Professor Graham has consistently received among the highest student eval-
uations (both on Input and Output) in the Faculty. Since arriving in our Faculty in 1984, he has taught in many different subject
areas, such as Management Science, Finance, and Policy, and has received equally high student evaluations in all areas. Most of
the courses Professor Graham has taught fall within the undergraduate required core courses including some courses in which many
students had traditionally experienced considerable difficulty. He has taught both small and large ‘auditorium-sized’ classes and his
enthusiasm for his work makes learning a pleasure for his students. Professor Graham’s teaching record has remained outstanding
and he has been one of the Faculty’s most popular and inspirational teachers.

FACULTY OF DENTISTRY

Dr. Dorin Ruse  Department of Oral Biology

Dr. Ruse is being recognized for his development of entirely new courses in Dental Biomaterials and for his highly effective and
captivating presentations. The difficulty of combining biomaterials science, bio-engineering, physiology of tissue response and oral
and dental surgical procedures has challenged dental curricula everywhere. Dr. Ruse has not only defined the scope of this expand-
ing multidisciplinary field, but also has instilled into students the concepts and learning skills to pursue the advances that are rapid-
ly changing the technology of dental science. These achievements together with his inspiring style, organized course objectives and
informative evaluation methods have endeared him to both students and colleagues.

FACULTY OF EDUCATION

Dr. Karen Meyer  Department of Curriculum Studies

Dr. Meyer’s teaching is creative, imaginative, unconventional and risk-taking. She instills a level of adventure, commitment, confi-
dence and experience into her courses. She believes in an evolving curriculum, one that realizes the interplay between teacher and
students and inquiry through interaction and exploration of experience. Dr. Meyer is a teacher of excellence because she is not afraid
to experiment, she listens and learns with her students, and she is passionate about her subject - science teaching.

Dr. Tom Sork  Department of Educational Studies

Dr. Sork’s contribution to classroom instruction, course and program development, student mentoring and supervision, and support
for graduate training nationally and internationally is inspirational. His concern for students and his dedication to the teaching
process are a model for all faculty to emulate. He combines an outstanding degree of care for student concerns and learning needs
with an insistence on intellectual rigor in the courses he teaches. He is considered a teacher with staying power, consistency, and
unassuming dedication.

FACULTY OF FORESTRY

Dr. Simon C. Ellis  Department of Wood Science

Dr. Ellis has a broad background in the field of Wood Science and Technology. Over the last seven years he has taught under-
graduate courses in the Wood Science and Industry program, the Forest Resources Management Program and the new Wood Products
Processing Program. Through his teaching he has come in close contact with most of the students in the Faculty of Forestry. Dr.
Ellis has participated in many teaching techniques that will increase active student involvement in the learning process.

Dr. Ellis was selected as Program Director of the Wood Products Processing Program because of his commitment to teaching and
undergraduate education. He is responsible for implementing this unique new program. In developing the program he is working
with colleagues to introduce student-centred teaching concepts through the program so that students become better learners while
at the university and gain the skills, knowledge and enthusiasm for learning that are needed for successful careers beyond the uni-
versity.
The Killam Teaching Prize is being awarded to Dr. Ellis to recognize an outstanding teacher and a faculty member who is committed to working with colleagues and students to improve teaching and delivery of undergraduate and graduate programs with the Faculty of Forestry. Dr. Ellis is a most deserving recipient of this prestigious Killam Teaching Prize.

FACULTY OF GRADUATE STUDIES
Dr. Tim Murphy and Dr. Lynn Raymond  Graduate Program in Neuroscience

This year the Faculty of Graduate Studies Killam Teaching Prize is awarded jointly to Dr. Tim Murphy and Dr. Lynn Raymond, Assistant Professors in the Department of Psychiatry and faculty affiliates of the Graduate Program in Neuroscience. Drs. Murphy and Raymond coordinate Neuroscience 500, an intensive survey of cellular and molecular neurobiology, designed to introduce first-year graduate students to the field and described as a "flagship" of the Program. Students describe Drs. Murphy and Raymond as "exemplary teachers and leaders". One wrote: "The course would be absolutely dreadful if it were not for two phenomenal instructors ... Dr. Tim Murphy and Dr. Lynn Raymond". Several others comment on their open, friendly, well-organized and stimulating classes as well as their extraordinary enthusiasm and commitment to teaching-related activities outside of the classroom. In addition to their contributions in coordinating Neuroscience 500, Drs. Murphy and Raymond have improved the quality of graduate education at UBC in several other ways. Dr. Murphy has organized the Neuroscience Discussion Group, a seminar series that has brought several internationally recognized scientists to UBC, as well as providing a catalyst for bringing together the UBC neuroscience community. Dr. Raymond, a board-certified clinical neurologist, gives Professor's Rounds with Neurology residents as well as basic science lectures to Neurology and Psychiatry residents, all of which have been enthusiastically received. For their individual and joint contributions, Drs. Murphy and Raymond richly deserve our recognition as joint winners of the Killam Teaching Prize.

FACULTY OF LAW
Professor Christine Boyle

Christine Boyle enjoys the special distinction of being both a superb teacher and a gifted scholar. Known for her clarity of thought, outstanding communication skills and dedication to students, Professor Boyle was twice nominated for this year's teaching excellence award. A significant contributor to teaching pedagogy, Professor Boyle has published teaching materials which are used in law schools across Canada. She is an innovator in Canadian legal education. For example, this year, in conjunction with a colleague, Professor Boyle designed and delivered over the Internet a most successful course in evidence. Critical thinking and "Teaching Law as if Women Really Matter" (the title of one of her early published articles) are skills she both teaches and demonstrates.

FACULTY OF MEDICINE
Dr. Barbara McGillivray  Department of Medical Genetics

Dr. McGillivray is a clinical genetist who has made outstanding contributions to teaching medical students, residents and fellows, as well as undergraduate and graduate students. She has helped develop courses in Medical Genetics and Biomedical Ethics, as well as major portions of the new medical student curriculum. Her deep commitment to education and the excellence of her patient care has earned her the esteem of her colleagues and students.

Dr. Christopher McIntosh  Department of Physiology

Dr. McIntosh trained as a teacher prior to obtaining his B.Sc. and Ph.D. degrees in Biochemistry at the University of London, England. Since assuming an academic position in the Department of Physiology, Dr. McIntosh has participated in teaching a multitude of courses to both Medical and Science students. Of particular note are his lectures on gastrointestinal physiology, the area of his research interests, but he is also recognized for his knowledge of Endocrinology. His major strengths in teaching these topics include the ability to simplify difficult concepts and present the information in an interesting and relevant context. His handouts are well known for their clarity. Recently, Dr. McIntosh has been heavily involved in the redesign of the Medical School curriculum, and is a member of both the Phase 2 Part I and Phase 2 Part II (Gastroenterology) Subcommittees (1995-1997). Dr. McIntosh has a productive research program which, over the past 16 years, has stimulated the interest of numerous undergraduate science and medical students. Dr. McIntosh has been nominated previously for a UBC Killam Teaching Prize (1996) and, by the students, for teaching excellence awards in the Faculties of Medicine and Science.

Dr. William K. Ovalle  Department of Anatomy

Dr. William K. Ovalle has been a faculty member in the Department of Anatomy for 25 years. Although he has many academic talents, he is best known for his role as a lecturer in Microscopic Human Anatomy - a major course for our first year medical and dental students. He has served as director of this course for the last 19 years. In addition to this major responsibility, he also lectures in neuroanatomy, human biology, and speech and audiology courses, and participates in refresher courses in anatomy. He has even made the occasional cameo appearance in our gross anatomy laboratories. Over the last four years, he has played an active role in the planning, development, and implementation of our new medical and dental curriculum that will start in the fall of 1997. Dr. Ovalle is the quintessential teacher. All
his lectures are well prepared, rehearsed, and presented with infectious enthusiasm. His ability to use both hands simultaneously to draw parts of the brain is astounding. His educational approach has always been to nurture, enhance, motivate and inspire the professional development of our students, and not to simply inform them. He knows our medical and dental students by name and his door is always open to them, as it is to our graduate students, for support, advice and counseling. Dr. Ovalle brings the study of anatomy to "life" and has had, and will continue to have, a positive and lasting impact on generations of our students.

**FACULTY OF PHARMACEUTICAL SCIENCES**

Mr. Simon Albon

Mr. Albon is a Senior Instructor and Director of the Faculty of Pharmaceutical Sciences Summer Student Research Program. His major teaching responsibilities are in Pharmacy 325 and Pharmacy 525. His outstanding qualities as a teacher and mentor are highly regarded amongst his fellow colleagues and students. Mr. Albon has just recently introduced new technologies into the Pharmacy 325 laboratory curriculum with the design of computer-assisted instruction modules for teaching pharmaceutical analysis. Because of his dedication to this task we are fortunate to be leaders in this area of curriculum technology in pharmaceutical sciences. Mr. Albon is an outstanding teacher and mentor who maintains a continuing excellent rapport with pharmacy alumni.

**FACULTY OF SCIENCE**

Dr. Craig Boutiller

Craig Boutiller is an assistant professor in the Department of Computer Science. He has taught a first-year lecture course and a graduate seminar in computer science. Dr. Boutiller's lectures are delivered with clarity and enthusiasm. He has an excellent interaction with students in both the formal lecture theater and the less formal seminar room. Indeed Dr. Boutiller has won an "Incredible Instructor" award four times for his work in first-year computer science. He has a special ability to create a "small class" atmosphere even in a large lecture room. He handles in-class questions with ease and encouragement. The students definitely appreciate this acceptance and careful attention to their questions. In fact the students sum up their support of this nomination by noting that "Craig Boutiller is more than our professor; he is also our friend."

Dr. Brian Cliff

Brian Cliff is the laboratory instructor for the advanced second-year organic chemistry course, and for all of the third-and fourth-year organic chemistry courses. Dr. Cliff is incredibly well organized - both the students and teaching assistants find it easy to understand what is expected in each laboratory session. The second-year labs begin with a demonstration by Dr. Cliff. These are delivered with humour, enthusiasm and a professionalism which is admired by the students and his colleagues. Dr. Cliff has a relaxed and calm style which serves to alleviate any concerns the students might have about the laboratory. He is very approachable, and the students believe that they are treated with respect and fairly evaluated by Dr. Cliff. This is quite important when there are several sections of the same laboratory. Always over 90%, and on occasion 100%, of the students rank Dr. Cliff as an effective teacher. Dr. Cliff writes all of the manuals used in his laboratories. They are models of clarity and contain a wealth of useful information.

Dr. Paul LeBlond

Paul LeBlond has taught in both physics and oceanography throughout his long and dedicated career at UBC. Most recently he has taught Oceanography 310. This is one of the largest third-year courses at the University. It attracts a broad spectrum of students. One can imagine the challenges an instructor faces when teaching almost 400 students with diverse backgrounds and interests. Professor LeBlond meets this challenge admirably. First he makes everyone feel that they are not in a large, impersonal classroom. He deftly uses audiovisual materials and has a great sense of humour. Thus he captures the students' attention, and presents the material in an orderly and logical fashion. Professor LeBlond is able to interweave the historical background and up-to-date examples of the concepts covered in the course. Literally thousands of UBC undergraduates have had the pleasure and benefit of Paul's lectures.

O Canada! Our home and native land,
True patriot love in all thy sons command.
With glowing hearts we see thee rise,
The true north strong and free!
From far and wide, O Canada,
We stand on guard for thee.
God keep our land glorious and free!
O Canada, we stand on guard for thee,
O Canada, we stand on guard for thee.

MUSICAL PROGRAMME
THE UBC SCHOOL OF MUSIC
Director: Professor Martin Berinbaum
THE UNIVERSITY THANKS ITS FRIENDS FOR THEIR SUPPORT

An increasing number of UBC alumni and friends realize the vital role they play in the life of the university. Their contributions provide key support for UBC's commitment to service through excellence.

Basic support for the university comes from tuition fees and from the Government of British Columbia and the Government of Canada. However, many important areas are not covered by such funding, creating opportunities to support university priorities through private donations. Alumni and friends play a critical role in supplementing government funding to build on UBC's tradition of achievement.

With more than one hundred academic departments, schools, research institutes and centres administered by the faculties, opportunities for support are many and varied. UBC has tremendous expertise among faculty and strong academic programs reflecting community needs on which to build.

In 1989, UBC launched the World of Opportunity Campaign. It was designed to provide the facilities, equipment, scholarships and endowed chairs required for academic distinction. When the campaign wrapped up in 1993, private sector and government donations totalled more than $260 million, making it one of the largest university fund-raising campaigns in Canadian history.

The university wishes to express its appreciation to those who demonstrated their commitment to the ideals of the university and their awareness of its needs. Your generosity contributes immeasurably to the vitality and strength of UBC.

Be assured that UBC will strive to continue to merit your confidence and support.

For further information about gifts to UBC, please contact the Development Office, The University of British Columbia, Vancouver, B.C. V6T 1Z1, Telephone 822-8900.
